Our environmental commitment:

This leaflet has been printed using paper from sustainable forests and further reinforces our commitment to keeping the island green for future generations.

Our handset recycling commitment:

From 1st June 2008, any unwanted mobile handsets can be brought into our store where they will be sent to developing countries as part of a world handset recycling scheme. Each customer handset successfully sent will receive an in store credit based on the residual value of that handset. Alternatively this credit value can be donated to charity.
